

## Souls can't be patched!

We protect children from sexualized violence and give those affected a voice!

**Tour41 e.V.**

Aktiv zum Schutz von Kindern  
vor sexualisierter Gewalt

## **Sexualized violence against children – a topic of enormous proportions**

Every child has the right to childhood, to a time to play and discover – without fear, violence, and worries. Unfortunately, many children are not granted this.

### **Facts, urging to act**

Statistically, every seventh person is affected by sexualized violence in childhood and adolescence!

According to the WHO, there are currently about 1,000,000 affected children and adolescents living in Germany!

**"Sexual violence against children  
and adolescents is part of the  
basic risk of a childhood in  
Germany!"**

*Johannes-Wilhelm Rörig, UBSKM  
Abuse Commissioner of the Federal Government*

### **Take responsibility**

Protecting children and young people and giving them every opportunity in life is our common task for society as a whole.

Dealing openly with the issue of sexualized violence by providing information and education eliminates uncertainties, sets limits for perpetrators and opens up spaces for those affected to make themselves visible and get help.

## Who we are

Tour41 e.V. is a non-profit association that works on various levels to combat sexualized violence against children and young people.

The number 41 stands for 41 reported cases of child abuse in Germany every day. The estimated number of unreported cases is 20 times higher!

## What we do

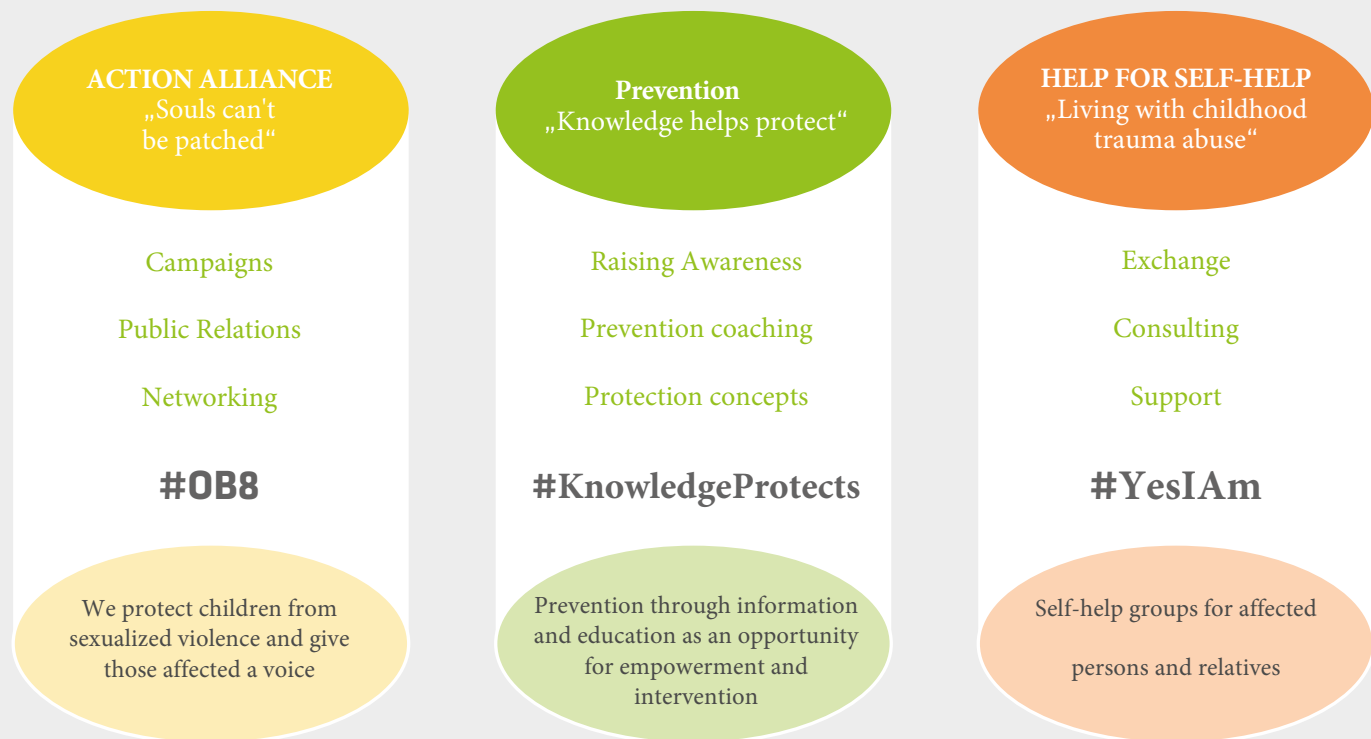

We use events and campaigns to advocate for social change, so that adults take responsibility and the protection of children becomes part of everyday life.

We contribute to removing taboos from the topic of sexualized violence against children by informing and educating about the forms and consequences.

We show solidarity with those affected by sexualized violence in childhood and adolescence, stand up for their rights and give them a voice.

## Holistic approach with three pillars

*Strong for children and those affected: the three fields of action of Tour41 e.V.*

## Active for the protection of children against sexualized violence with three fields of activity

### Action alliance against sexualized violence

Together with our partners, we make the issue visible through political, public, and media campaigns.

### Prevention of sexualized violence

We inform and advise you on prevention coaching and protection concept development. Our offer includes individual target group and need-oriented information events, seminars, and workshops for parents, caregivers, leaders, and teams.

### Help for self-help

We offer affected women and men who live with and survive the childhood trauma of abuse, as well as family members, a platform and space for exchange in a protected environment. Each person is an expert in his or her own right.

This valuable advice and support is indispensable, because those affected can not only understand the emotional situation of the other, but often also have numerous experiences in the support system.

## With your support we can

- Protect children from sexualized violence
- Give those affected a voice and space for exchange
- Sensitize people to the issue
- Influence political decisions
- Initiate campaigns
